

Star Asia Vision Corporation (SAVC) x Fractal Facades

Moving Forward Together

GCC Market Development Report (Collaboration Framework, Market Opportunities & Roadmap)

Region: UAE • KSA • Wider GCC (Kuwait, Bahrain, Qatar and Oman)

Date: 09 April 2026 (Asia/Dubai)

Prepared By: Mohammed Vaseeuddin

1. Purpose of This Document:

This document is presented to the leadership of Fractals on the occasion of the signing of the Memorandum of Understanding (MOU) between Star Asia Vision Corporation (SAVC) and Fractal Systems FZ LLC on 09 April 2026.

Its purpose is to:

- Outline the collaboration framework and how both parties will operate together
- Summarize the GCC market landscape across LED display systems and media façade lighting
- Identify key DOOH operators, developers, and project stakeholders relevant to the alliance
- Highlight near-term influenceable projects where the alliance can pursue early positioning
- Define immediate priorities and the 90-day roadmap for joint market development

Note:

This is a directional document. Specific project-level commercial details, internal pricing, and detailed target account intelligence are governed separately under the MOU, related annexures, and internal working documents.

2. The SAVC x Fractals Alliance

The collaboration pairs SAVC's OEM manufacturing platform with Fractals' GCC delivery capability, creating a single accountable system aligned to how specification-driven procurement in the GCC evaluates and awards LED and media façade work.

SAVC (OEM / Manufacturer)

- **Premium LED Platform:**
Nichia-powered technology with Taiwanese engineering depth and factory-controlled quality
- **CMS-First Architecture:**
Centralized content management, fleet monitoring, health-check diagnostics, and operator-grade reporting
- **Outdoor-Ready Design:**
Products engineered for GCC environmental extremes - heat, dust, humidity, and coastal exposure
- **Tender Enablers:**
Comprehensive spec library, datasheets, FAT documentation, commissioning standards, and certification support
- **Global References:**
Verified deployments across Times Square (prestige), Las Vegas (extreme heat), and Miami (coastal humidity)

Fractals (System Integrator / GCC Delivery)

- **Local Execution:**
End-to-end delivery from engineering coordination through installation, commissioning, and handover
- **Compliance & Approvals:**
Municipality coordination, civil defence, HSE systems, method statements, and ITP execution
- **Digital Content:**
Media programming, content creation, visual storytelling, and façade narrative development
- **O&M Capability:**
AMC delivery, spares management, RMA flow, and lifecycle support
- **Regional Presence:**
Established integrator with GCC client relationships and local execution track record

Together (The Procurement Answer)

The combined positioning provides consultants, developers, and operators with a specifier-ready, deliverable, and operations-ready platform, backed by bounded warranties, clear SLAs, and a single point of accountability.

SAVC x Fractals solution:

- Tender-grade dossier (access instrument)
- Exclusive delivery wrapper (single throat to choke)
- CMS-first + O&M model (operator-grade readiness)
- Premium quality/TCO narrative (Nichia-backed positioning)

3. MOU Framework Summary

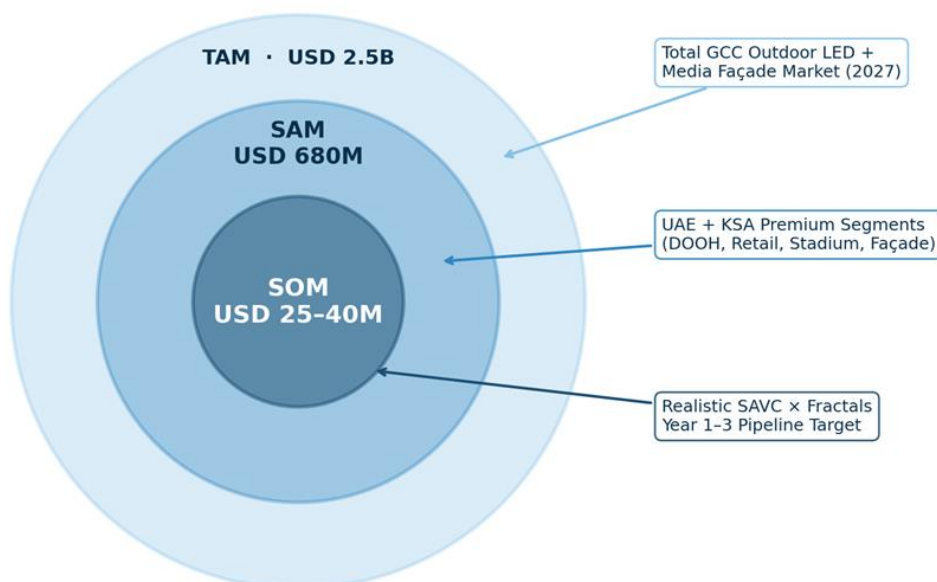

The MOU signed on 09 April 2026 establishes the following structural foundations:

Element	Summary
Strategic Purpose	Structured B2B integration partnership positioning SAVC as a premium engineered alternative, differentiated from commodity suppliers, through Fractals as the exclusive media façade system integrator.
Exclusivity	Fractals appointed as sole and exclusive media façade system integrator. LED display systems on non-exclusive basis with exclusivity path subject to demonstrated performance.
Territory	UAE, KSA, and wider GCC (Qatar, Kuwait, Bahrain, Oman) subject to mutual written confirmation.
Project Registration	Structured registration with 12-month protection, renewable upon active pursuit evidence.
Prequalification	All prequalification submissions identify Fractals as exclusive integrator. Joint framework to be developed.
Roles	SAVC: Product, manufacturing, technical support, CMS, warranty. Fractals: Market development, engineering, installation, commissioning, content, O&M, approvals.
IP Protection	Fractals' digital content remains Fractals' property. Co-developed materials available for joint use.
Term & Protection	12-month initial term. Binding provisions for exclusivity, non-circumvention, confidentiality, and IP. 3-month post-termination protection.

4. Market Analytics & Sizing

The following analysis sizes the GCC LED display and media façade market across three lenses: Total Addressable Market (TAM), Serviceable Addressable Market (SAM), and Serviceable Obtainable Market (SOM) for the SAVC x Fractals alliance.

TAM / SAM / SOM Analysis GCC LED Display & Media Façade Market

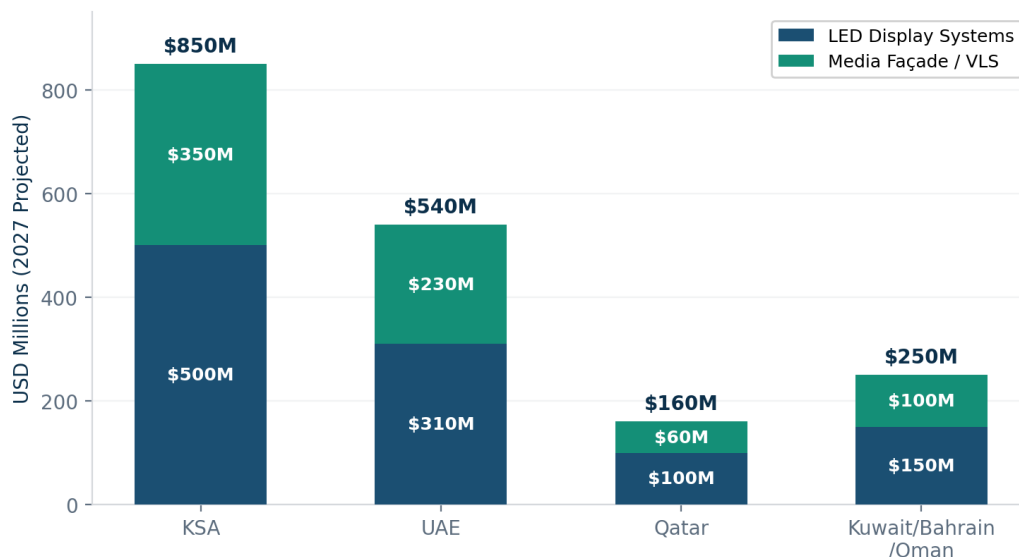

Metric	Value (2027)	Scope	Basis
TAM	USD 2.5B	Full GCC DDS + VLS	Total GCC digital display systems + visual lighting systems (outdoor LED, media façade, DOOH, retail, stadium, government).
SAM	USD 680M	UAE + KSA, premium segments	UAE + KSA represent ~70% of GCC. Premium outdoor LED and media façade segments (excluding indoor, budget/commodity, wayfinding) = ~39% of TAM.
SOM	USD 25 to 40M	Year 1 - 3 pipeline target	Based on 3 - 5 projects Year 1, scaling to 12 - 15 by Year 3 across DOOH, retail, stadium, and media façade. Conservative 1.5 - 2% capture of SAM.

Market Size by Country (2027 Projected)

KSA leads the GCC with an estimated USD 850M in combined LED display and media façade spend, followed by the UAE at USD 540M. Together, these two markets represent approximately 70% of total GCC demand.

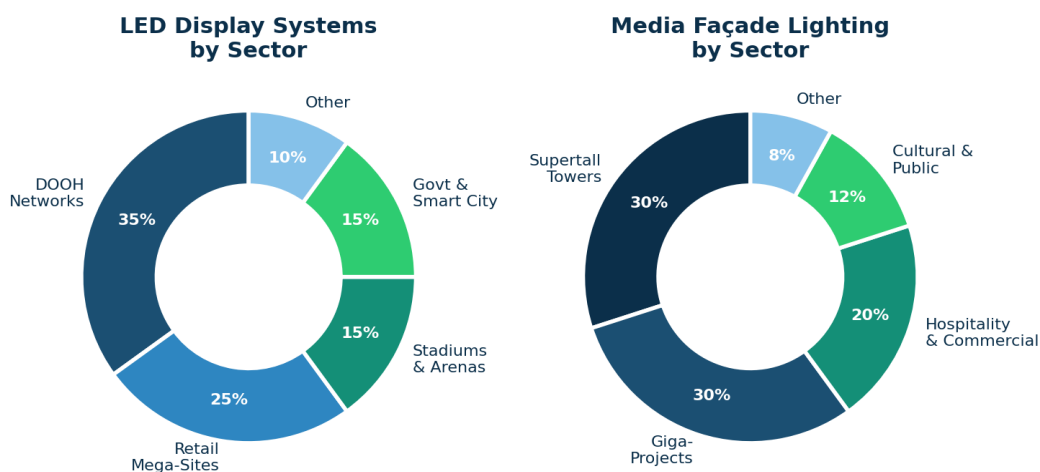

GCC Market Size by Country (2027 Projected)

Sector Distribution

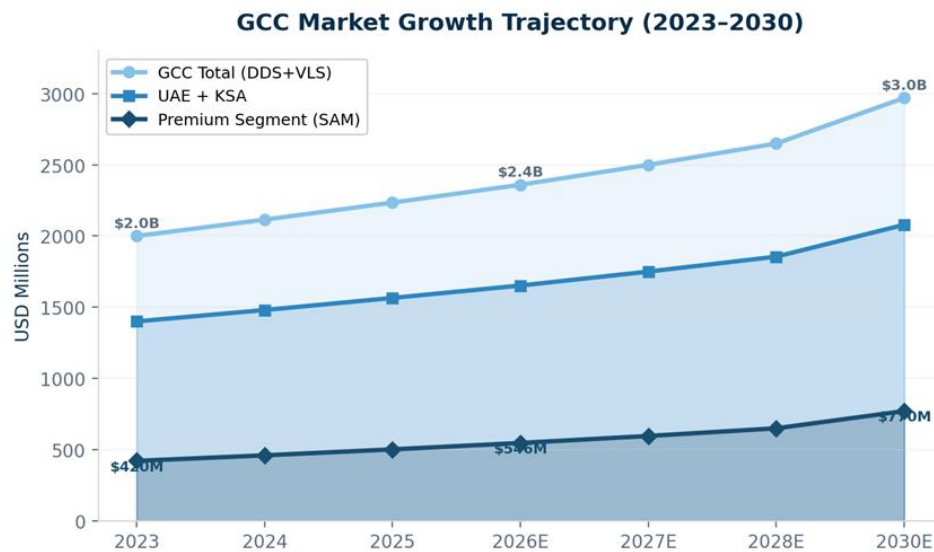

SAVC x Fractals targets the highest-value segments within each product domain. In LED display, DOOH networks and retail mega-sites account for 60% of addressable demand. In media façade, supertall towers and giga-projects drive 60% of premium opportunity.

Sector Distribution — SAVC x Fractals Target Segments

Growth Trajectory (2023 - 2030)

The premium segment within UAE and KSA - the alliance's primary addressable market - is projected to grow from approximately USD 420M (2023) to USD 770M (2030), representing a compound annual growth rate of approximately 9%.

SOM Build-Up | Revenue Ramp (Year 1 - 3)

Period	Projects	Avg. Value	Revenue	Key Milestones
Year 1	3 to 5	USD 1 to 2M	USD 3 to 8M	First prequalified wins, reference projects established, 1-2 media façade projects
Year 2	8 to 12	USD 1.5 to 2.5M	USD 12 to 25M	Repeat orders from DOOH operators, stadium packages, expanded vendor approvals
Year 3	12 to 18	USD 2 to 3M	USD 25 to 40M	Established approved-make status, O&M recurring revenue, media façade reference projects

Note:

SOM estimates are based on conservative assumptions. Actual values will be refined as the prequalification dossier is deployed and initial project registrations are completed.

5. GCC Market Landscape - LED Display Systems

The GCC digital display market is valued at approximately USD 2 billion (2023), projected to reach USD 2.5 billion by 2027 (CAGR ~5.7%). Saudi Arabia absorbs 40 - 45% of regional capex, the UAE accounts for 25 - 30%, Qatar ~10%, and the remaining GCC countries 15 - 20% combined.

5.1. United Arab Emirates

Dubai leads with over 45% of UAE installations, followed by Abu Dhabi (30%) and Sharjah/Northern Emirates (20%).

- **DOOH Networks:**
BackLite Media, Hypermedia, JCDecaux Abu Dhabi, Alliance Media, and Hills Advertising are expanding digital inventory across roads, airports, transit, and landmark positions.
- **Retail Mega-Sites:**
Majid Al Futtaim (Mall of the Emirates AED 5B transformation), Emaar (Dubai Mall), Aldar Malls, Dubai Holding are investing in digital experience layers.
- **Stadiums & Arenas:**
Miral (Etihad Arena / Yas Island), Zayed Sports City (Ethara + OVG) - perimeter, ribbon, scoreboards, fan zones.
- **Smart City & Government:**
RTA transit digitalization, municipality signage, Expo City, and civic beautification.

5.2. Kingdom of Saudi Arabia

KSA is the largest single market, driven by Vision 2030 giga-projects, entertainment expansion, and urban transformation.

- **DOOH Networks:**
Rotana Signs (SAR 600M Makkah concession; 2,688 Riyadh Metro screens), Al Arabia/ACS, JCDecaux ATA Saudi expanding across Riyadh, Jeddah, Dammam.
- **Stadiums:**
Kingdom Arena (GEA), King Abdullah Sports City, Saudi 2034 World Cup (15 stadiums across 5 cities).
- **Retail:**
Cenomi Centers, Al Othaim, developer-owned retail destinations.
- **Giga-Projects:**
NEOM, Qiddiya, Diriyah, New Murabba, Red Sea Global, ROSHN, Jeddah Central.

5.3. Qatar, Kuwait, Bahrain & Oman

- **Qatar (~10%):**
Lusail City development (USD 45B), stadium legacy upgrades, ELAN Decaux DOOH network.
- **Kuwait:**
The Avenues (Mabaneer), civic renewal, M2R Group outdoor media.
- **Bahrain:**
Finance hub developments, waterfront projects, JCDecaux Bahrain.
- **Oman:**
Muscat Corniche, tourism waterfront projects, Outdoor Media network.

6. GCC Market Landscape - Media Façade Lighting

Media façade demand is driven by architectural branding, destination lighting, and programmable façades as revenue-generating media assets. The market is consultant-led with 12 - 24 month project cycles.

SACO Technologies (Canada) dominates the premium segment (Burj Khalifa: 28km V-Stick, 1.1M+ pixels, 770m). SAVC's IRISin platform is positioned as a credible premium alternative.

6.1. UAE

- **Supertall Towers:**
Burj Azizi (725m), Burj Binghatti Jacob & Co (532m+), Tiger Sky Tower, One Za'abeel, Nebula Tower, Dubai Creek Tower (tender expected 2026).
- **Destination & Landmark:**
Dubai Marina corridor, Sheikh Zayed Road, JBR waterfront, Expo City, Dubai Islands, Al Marjan Island.
- **Retail & Hospitality:**
Mall façades, hotel towers, mixed-use developments across Dubai, Abu Dhabi, Sharjah.
- **Cultural & Festival:**
Sharjah Light Festival, Dubai Shopping Festival, museums, waterfront experiences.

6.2. KSA

- **Giga-Projects:**
NEOM/The Line (2.1M sqm mirrored façade Phase 1), Qiddiya, Diriyah (USD 63B), New Murabba/The Mukaab, Jeddah Tower, Red Sea Global.
- **Commercial:**
King Abdullah Financial District, Riyadh commercial towers, Jeddah Historical District, branded hotels.
- **Civic:**
Government beautification, cultural districts, heritage lighting.

6.3. Qatar, Kuwait, Bahrain & Oman

- **Qatar:**
Lusail Plaza Towers (70-storey), Msheireb Downtown, The Pearl, FIFA venue upgrades.
- **Kuwait:**
The Avenues expansion, Kuwait City towers, civic landmarks.
- **Bahrain:**
Bahrain Bay, Dilmunia Island, financial tower façades.
- **Oman:**
Muscat Corniche, OCEC surroundings, hospitality façades.

7. Key DOOH Operators & Media Owners

These operators control repeat LED procurement and prioritize uptime, CMS monitoring, spares responsiveness, and network scalability.

Operator	Territory	Relevance
Rotana Signs	KSA	SAR 600M Makkah concession, 2,688 Riyadh Metro screens, Dammam expansion
Al Arabia / ACS	KSA + UAE	Major DOOH operator, AED 53M UAE mall contracts, programmatic-ready
BackLite / MMG	UAE	Multiply Media Group (BackLite, Media247, Viola), premium positions
Hypermedia (W Group)	UAE	Outdoor and indoor digital network across UAE
JCDecaux ATA Saudi	KSA	Global OOH leader, Saudi JV, transport/urban DOOH
JCDecaux Abu Dhabi	UAE	Abu Dhabi concession-based network
Alliance Media	UAE+KSA+GCC	Multi-country outdoor media operator
Hills Advertising	UAE+KSA+GCC	Established outdoor media, cross-GCC presence
ELAN Decaux	Qatar	ELAN × JCDecaux JV, Qatar DOOH
M2R Group	Kuwait	Kuwait outdoor media and signage
JCDecaux Bahrain	Bahrain	Bahrain DOOH concession operator
Outdoor Media	Oman	Oman outdoor advertising network

8. Influenceable Projects - Near-Term Opportunities

These projects represent near-term opportunities for early positioning through consultant engagement, specification inclusion, or direct developer/operator outreach.

Project-level commercial details and pursuit strategies are maintained in separate internal documents.

8.1. Media Façade Opportunities

Project	Location	Developer	Opportunity
Burj Azizi (725m)	Dubai	Azizi Developments	Supertall media façade - landmark night identity
Burj Binghatti (532m+)	Dubai	Binghatti Developers	Illuminated crown and façade feature lighting
Dubai Creek Tower	Dubai	Emaar Properties	Tender expected 2026 - major façade opportunity
Jeddah Tower (1,000m+)	Jeddah	Jeddah Economic Co	World's tallest structure - media façade
One Za'abeel	Dubai	Ithra Dubai / ICD	LED + architectural lighting on skybridge
Nebula Tower	Dubai	ICD Brookfield	Supertall mixed-use on Sheikh Zayed Road
New Murabba / Mukaab	Riyadh	PIF subsidiary	World's largest building by volume
Diriyah Gate	Riyadh	Diriyah Company (PIF)	Heritage architectural lighting (3,450 acres)
Qiddiya City	Riyadh	Qiddiya Investment (PIF)	Entertainment venues and landmark façades
Lusail Plaza Towers	Qatar	Qatari Diar	70-storey commercial tower façades

8.2. LED Display / DOOH Opportunities

Project / Account	Location	Stakeholder	Opportunity
Mall of the Emirates	Dubai	Majid Al Futtaim	AED 5B redevelopment - outdoor LED + digital
Emaar Downtown	Dubai	Emaar Properties	Boulevard, Dubai Mall, district screens
Kingdom Arena	Riyadh	GEA / Min. of Sport	Stadium LED (perimeter, ribbon, scoreboards)
2034 World Cup Stadiums	KSA	Ministry of Sport	15 stadiums - repeatable LED packages
Etihad Arena / Yas	Abu Dhabi	Miral	Arena LED upgrades and venue expansion
Riyadh Metro Network	Riyadh	Rotana Signs	2,688 screens - refresh/expansion potential
Expo City Dubai	Dubai	Expo City Authority	Destination screen deployment
Dubai Islands	Dubai	Nakheel / Dubai Holding	Leisure destination - signage + wayfinding
ROSHN Communities	KSA	ROSHN (PIF)	Community screens and amenity LED
The Avenues	Kuwait	Mabanee Company	Mega-mall DOOH and façade screens

9. Collaboration Framework & Lifecycle

Clear accountability at every project stage:

Stage	SAVC	Fractals
Design-Assist & Specification	Accountable (spec library)	Consulted
Module Selection & Config	Accountable	Consulted
Engineering (Structural/MEP)	Consulted	Accountable
Shop Drawings & Interfaces	Input provider	Accountable
Manufacturing & FAT	Accountable (factory QA)	Witness / input
Logistics & Import	Informed	Accountable
Installation & Execution	Support	Accountable
Commissioning & SAT	Support (calibration)	Accountable (SAT)
CMS Integration	Accountable (CMS/API)	Responsible (site)
Warranty	Accountable (product)	Back-to-back
O&M / AMC	Tech escalation	Accountable (SLA/RMA)

10. Client Engagement Model

A. Consultant & Specifier Engagement

- Joint registration with lighting designers (CD+M, BDP, WSP, Aurecon), façade consultants, and AV/ELV specifiers
- Specification inclusion targeting approved-make lists and basis-of-design positioning
- Technical presentations, demonstrations, and design-assist support

B. Operator & End-Customer Engagement

- Direct outreach to DOOH operators, mall owners, stadium operators, and developers
- Structured meetings with long sales-cycle management and weekly progress updates
- Target: minimum 10 projects annually incorporating SAVC products (per MOU)

C. Contractor Coordination

- Engagement with main contractors and ELV/Signage package contractors
- Integration with façade contractors for media façade structural coordination

D. Brand Visibility

- Co-branded marketing materials and case studies
- Exhibitions: GITEX, ISE ME, Saudi Light & Sound, Integrate Middle East
- Demo module deployment and showroom capability

11. Joint Prequalification Development

Prequalification is the primary access gate. Without tender-grade documentation, an OEM remains non-approved for tier-1 projects.

Master Dossier (Co-Branded SAVC x Fractals):

- Corporate profile and governance structure
- QA/QC system, HSE documentation, method statements, ITPs
- Technical product library (LED + media façade) and CMS readiness statement
- Delivery methodology, commissioning/SAT framework, warranty boundaries
- SAVC global reference proof pack (Times Square, Las Vegas, Miami)

Sector Variants:

- DOOH Operators: CMS, uptime SLAs, redundancy, spares, rollout playbook
- Retail Mega-Sites: Finish quality, serviceability, public-area HSE
- Stadiums & Arenas: Match-day SLA, redundancy, SAT scripts, on-site spares
- Government / Transport: Compliance, permits, authority approvals
- Media Façade: Architectural integration, programming, control systems, structural coordination

Vendor Registration Sprint:

- Target: initial batch within 30 - 45 days; 6 - 10 submissions within 90 days

12. Immediate Priorities (Post-Signing)

#	Action	Owner	Target
1	Nominate joint owners for dossier, vendor registration, pilot pursuits	Both	Week 1
2	Finalise prequalification dossier structure and begin content	SAVC + Fractals	30 - 45 days
3	Begin vendor registration submissions (UAE + KSA priority)	Fractals-led	45 - 90 days
4	Initiate consultant registration and specifier engagement	Fractals-led	30 days
5	Deploy SAVC demo module / sample cabinet	SAVC	30 days
6	Co-branded marketing materials and digital presentation	Joint	45 days
7	Structured outreach to priority DOOH operators and developers	Both	Ongoing
8	Identify and register initial project opportunities	Both	30 - 60 days
9	Weekly progress reporting and pipeline tracking	Both	Week 1
10	Introductory meetings with media façade project stakeholders	Fractals - led	30 - 45 days

13. 90-Day Success Definition

- Joint prequalification dossier (master + sector variants) completed and deployment-ready
- 6 - 10 vendor registration submissions completed and tracked weekly
- 10 - 15 senior stakeholder meetings with operators, retail groups, developers, and venues
- 3 - 5 qualified opportunities identified (scope, timeline, procurement route, buyer)
- 1 - 2 tenders or RFQs in flight
- Weekly reporting cadence with pipeline visibility for both parties
- Co-branded materials deployed (presentations, demo capability, case studies)
- Media façade positioning underway on at least 2 identified opportunities

14. Closing Statement

The signing of this MOU marks the formal beginning of a structured partnership. SAVC brings a premium OEM platform with global reference credibility. Fractals brings local execution capability, compliance ownership, and established GCC relationships.

The GCC market opportunity is real, measurable, and immediate - across DOOH networks, retail destinations, stadium infrastructure, and landmark media façade projects. The alliance matches exactly how this market buys: through prequalification, specification, and single-accountable delivery.

The foundation has been built. The work ahead is execution - building the dossier, registering with clients, meeting decision-makers, and converting opportunities into delivered projects.

We look forward to building this together.
